

RADIO ORCHESTRA VOL.1

THE HI LIFE CONNECTION "ORCHESTRA" MASTERPIECE

"... an old vinyl lp, hidden behind piles of other records. An old gramophone issuing unusual frequencies ..."

The **Hi Life Connection**, founded in 2001 by Guido Mignone aka Master Kush (a producer ever since careful of the study of music and of the international scene), and Dj B-Ras is an **"Open Music Project"** believing in music as an instrument of unity and global communication without "labels" or frontiers.

After nearly two years from **GLOBAL NATION**, the HI LIFE CONNECTION is back on the musical market presenting **RADIO ORCHESTRA Vol.I**, a six-piece ep on sale on all the major digital stores. Anticipated by two successful singles released

in the last few weeks (**VIP** and **BACK TO AFRICA**), this ep has kept the audience waiting and then fascinating them thanks to its musicality, unique in its genre.

HipHop, Reggae, BreakBeat, Dub, Pop and Reggamuffin are only some of the sound nuances proposed in RADIO ORCHETRA Vol.I.

Musicians of different origins and backgrounds have joined to give birth to a spectacular play of styles and savours. The London Club is mixed with the Brazilian taste and flows into the delicacy of Italian lyric opera, giving amusement in line with the most exacting dancefloors and creating a grandiose Italy-UK connection. RADIO ORCHESTRA Vol.I is a proper cultural contamination. It is renowned Black Music, rich in themes and reflections.

Underground, but with a sound refinement especially conceived and guaranteed by a great number of orchestra instruments (strings, brass, violins, bass tubas, trombones, guitars). The themes tell of life and everyday happenings. They are the fruit of the various experiences of the artists themselves, of their dreams and of their fears.

In Italy as in England, RADIO ORCHESTRA Vol.I has neither colour nor form. It has no definition, no "label". It is simply music, energy and harmony. It is a product of value with enormous potentialities. It is fresh, stimulating, fascinating. It is masterpiece of contemporary music capable of satisfying whatever listener.
